CUSTOMER STORY IN BRIEF

Arelion

A trusted partner for fast expansion

Helping Roamability scale its GRX and ISP infrastructure with speed and reliability.

Challenge
As **Roamability** experienced rapid business growth and increasing international roaming traffic, it needed to quickly expand network capacity and connectivity infrastructure while maintaining the reliability and service quality its customers depended on.

Solution
Arelion responded with the speed and flexibility required, rapidly expanding GRX and ISP capacity and supporting key infrastructure upgrades. Working closely with Roamability, Arelion's engineering team delivered scalable, reliable connectivity, competitive commercial terms, and a seamless implementation process, enabling expansion without delays or service disruption.

Results
With Arelion's scalable connectivity, Roamability was able to rapidly increase GRX and ISP capacity to support growing traffic demands. Fast deployment and reliable service enabled the company to onboard new customers quickly, sustain business growth, and maintain a consistent, high-quality experience across its network.
