

Protected network access
Empower your network with our two-in-one solution: Gain access to the best-connected network, with insurance against volumetric DDoS attacks, all in a single per Mb price.

Treat yourself to peace of mind
Focus on your core business while we protect you from large-scale volumetric attacks. Benefit from the security and confidence afforded by our robust protection measures.

High-level security
Using protocols such as Flowspec, Arelion bakes in security at the network level for you and your organization.

Purchase the best Internet
Partner with the top provider! As a Tier-1 provider, ranked no.1 in the world by Kentik, we provide best-in-class connectivity, along with a deep understanding of security risks.

Cost-effective protection
Integrate your security service within your IP budget! Implement a cost-effective, volumetric-based security solution tailored for your network landscape.

Dedicated DDoS detection
SecureConnect monitors the entire network for the sort of attacks that could flood your servers and connection with hostile traffic before triggering network-based countermeasures.

Intelligent network “shield”
Intelligent network protection 24/7 - we proactively detect and resolve issues before they affect your performance.
