

High level security
Isolated from Public Internet. IPX as defined keeps data security at the highest level. Prevents DDoS attacks

Including your future plans
We are continuously expanding our network footprint, so our customers can connect to more Clouds from more locations

We are specialists
Connectivity is at the core of everything we do. Our customers tell us it is our unique staff that sets us apart

Speedy deployment
With all major Clouds already on-net, we can build your connection when you want it

GRX was invented here
We are industry pioneers - data roaming was developed and launched by our staff

Meeting customer demands
Seamless roaming experience. Connect the cellular world the way you want. Remove complex barriers to entry

Scalable & flexible
Scale as you need – low to high bandwidths. Add locations where it makes sense

Open peering and unrivalled access
Our open peering policy reduces complexity. Regional data offload means our low latency gives you an industry leading "edge"
